

TLILIC2005 License to operate a boom-type elevating work platform (boom length 11 metres or more)

Course Overview

This course instructs you in the safe operation of elevated work platforms to the National licensing standard. Upon successful completion of the course you should apply for the Nationally Accredited High Risk Licence through any Australia Post outlet within 60 days and pay the applicable licensing fee; your card will then be issued by SafeWork NSW.

Duration

2 Days training & 1 Day Assessment

Target

This unit is appropriate for those working in operational roles where they are required to operate a boom type elevating work platform (boom length 11 metres or more)

Entry Requirements

- As this course contains safety critical information, participants must have the ability to read, write and understand English.
- Participants must wear steel cap boots, a hard hat, safety glasses, long pants and high visibility shirt/vest. You will also need wet weather gear if required.

Learning Outcomes

This unit requires the operator to plan the work, conduct routine checks, set up elevating work platform and shut down and secure elevating work platform.

Assessment

Assessment will consist of written assessment and practical demonstration

On Completion

Participants who successfully complete this nationally recognised training will be awarded a statement of attainment for the unit completed.

A High Risk Work License will also be issued on successful completion of SafeWork NSW Assessment
